WINTER 2010

Many of you have probably seen the news or read about "The Joe Kaluza Project." It was tragic what happened to this family and felt that the project was worthwhile. We, along with the Core 6 and many generous businesses and community volunteers, built a 2200 sq. ft. handicap-accessible home for the family. The home has many of the

latest and most modern features including voice-activated doors, lights, and televisions and a ceiling-track lift system. To see photos of the Kaluza project, go to our website and click on the "handicap accessible" tab.

Currently we have one new home under construction located in Beaver Township. We also are keeping busy with other projects including two additions soon to be started in Lowellville and Struthers. In addition, we have one commercial project underway.

We recently completed an addition to The Ursuline Center on Shields Road. The project consisted of a 35-unit changing station added to the men's and women's locker rooms. The project turned out beautifully and a public Grand Opening is scheduled for January 29th.

We are pleased to announce the addition of Gino Gentile to our company. Gino is currently a senior at the Mahoning County Career & Technical Center. We had the opportunity to meet Gino while he was working at the Kaluza project.

Sam Pitzulo Homes, being part of the Core 6, will be receiving the "Spirit of the Valley" award from the Regional Chamber of Commerce for the Kaluza Project. Also, the Core 6 has received the "Hero of the Mahoning Valley" award from the Red Cross. We are honored to receive these awards - it is great to see the community come together!

Please note- this is the last newsletter that we will mail. If you wish to receive our newsletter via e-mail, simply send your e-mail address to sampitzulohomes@yahoo.com or check our website for future newsletters.
